| Day 13-14 2025.07.31-08.01 | Semiconductor/Robot/Drone Industry Visit. | We reserve the right to make reasonable adjustments to the itinerary. ROTEX will support needed for daily life management, evening activities, and documentation. | |

Certification At the end of the camp, each unit's partners will issue training completion certificates to the campers.

Insurance Participants must have travel insurance that covers accidents, illness, being of responsibility of the participant, and send it along with the flight data.
TRYEMP reserves the right to cancel the place if the insurance policy is not previously received.

You may not know Taiwan, or where it is located, but you cannot deny that it is a source of technological and cultural innovation. Let's explore Taiwan's technological and cultural journey through the Taiwan Rotary Youth Exchange program (D3521, 3522, 3523).

Date: July 19 ~ Aug. 09 2025

Semiconductor course

Our semiconductor course designed for young students. Explore the fundamentals of the semiconductor industry, manufacturing technology, packaging and testing, and material analysis. Engage in hands-on activities and gain practical experience. By the end of the course, you'll have a solid foundation in this cutting-edge field. No prior knowledge required—just curiosity and enthusiasm!

Robot Course

In the robot course You can observe the robot's manufacturing principles and operation learning by following the award-winning team of the 2024 FRC Robot Competition.

Drone course

Drone course from July 28-30 in Taiwan for an intensive, hands-on drone pilot training experience designed for ambitious young learners. This immersive program takes you from foundations to advanced applications, equipping you with the skills to operate drones with confidence and precision.

Dear All,

We're excited to share the birth of a new Science camp with you in Taiwan.

Please be advised all the details in the Flyer and register the places by first-come, first-served.

Title: 2025 Science Summer Camp organized by

TRYEMP(MD D3521, 3522, 3523)

Topic: semiconductor, drone, robot hands-on experience

Date: July 19 ~Aug. 09 2025

Language: English

Age: between 18 and 25 years old

Spots available: 24

Camp fee: USD 1,700 (covers all costs for accommodation, daily meal and course fees, dinner at youth hotel is not included)
